Institute of Management Sciences | IMSciences

Sep 2022 - Jun 2026

Bachelors Of Science (BSc)

Software Engineering

Work Experience

UI\UX Designer

March'26- Present

Westdell Development Corp, Remote, Part-Time, Canada

- Designed intuitive and user-centered interfaces for web and mobile applications, aligning with product goals and user needs
- Conducted user research and translated insights into wireframes, user flows, and high-fidelity prototypes
- Collaborated closely with product managers and developers to deliver scalable and user-friendly design solutions
- Contributed to the design and improvement of digital products, ensuring consistency across UI components and design systems
- Iterated on designs based on user feedback and usability testing to enhance overall user experience
- Worked in a fast-paced startup environment, adapting to evolving requirements and contributing to product growth

Design & Innovation Delegate

7 Dec'25- 14 Dec'25

UN Women, Seoul, Korea

- Selected as 1 of 20 young female tech leaders from Pakistan to represent the country in an international UN Women program.
- Designed and led a women-focused tech advocacy initiative, engaging 50+ participants to raise awareness about gender inequality in STEM fields. Explored startup ecosystems through visits to innovation hubs and engagement with mentors and founders
- Collaborated on and presented a product/business idea using design thinking and user-centered principles
- Gained exposure to UX strategies, design patterns, and AI-driven product innovation
- Contributed to discussions on inclusive design and women's leadership in STEM

Graphics and Content Lead

Sep'25- Present

Microsoft Learn Student Ambassador, Islamabad, Pakistan

- Led graphics design and content strategy for MLSA Islamabad.
- Managed social media platforms, branding, and digital presence.
- Designed creative assets and campaigns to enhance community engagement.

User Experience Designer

May'24- Oct'24

Shopify Digital Solutions, Remote, UK

- Crafting intuitive user interfaces tailored for AI detection dashboards and various management systems.
- Engaging with clients to discern their needs and preferences, ensuring alignment with design objectives.
- Iterating through wireframes, mockups, and prototypes to refine user experiences.
- Collaborating seamlessly with interdisciplinary teams to deliver optimal UX solutions, including SaaS product enhancements

UI/UX Intern

Sep'23- June'24

IMDigisol, Hybrid, Pakistan

- Contributed to the development and implementation of a comprehensive School Management System, covering multiple modules including student information, attendance, grades, and staff management.
- Assisted in designing and integrating modules for fee management, timetable scheduling, and exam tracking, ensuring seamless data flow between components.
- Collaborated with the development team to analyze requirements, debug issues, and optimize system performance.
- Participated in database design and management, ensuring efficient storage and retrieval of student, staff, and academic records.
- Gained experience in full lifecycle software development, from requirement gathering and system design to testing and deployment.
- Enhanced team collaboration and project management skills by actively participating in daily stand-ups, code reviews, and progress discussions.

Projects

CarEager App (Collaborated Project) 2024

- Designed CarEager, a 24/7 roadside and onsite assistance app for vehicle owners to handle breakdowns and emergencies. Conducted user interviews and research, defined user personas, and created wireframes. Developed high-fidelity mockups and interactive prototypes in Figma, ensuring a seamless, user-friendly experience that provides safe, reliable, one-tap support for all transportation modes.

Infrared Sauna Website (2023)

- Created a modern and user-centric website for Lucent Saunas to promote the wellness benefits of infrared sauna therapy. Focused on clean design, smooth navigation, and informative content to communicate health advantages like detoxification, relaxation, and pain relief. Designed wireframes and high-fidelity prototypes in Figma, blending advanced technology with elegant aesthetics to strengthen user engagement and brand credibility.
- [Live Website Link](#)

Ciroa Website (2023)

- Designed a vibrant and user-friendly e-commerce website and mobile app for cosmetics, offering a wide range of hair care and skin care products. Focused on colorful, light-toned UI for an engaging shopping experience with smooth navigation and modern aesthetics.
- [Live Website Link](#)

EcoMapper App (2023)

- Designed a mobile app tailored for tourists to explore destinations in an eco-friendly way. The app helps users discover attractions, plan sustainable travel routes, and access local guides. Focused on intuitive navigation, clean visuals, and interactive maps to enhance the travel experience while promoting environmental awareness.
